EDUCATION

B.Tech Electronics & Communication, NOIDA INSTITUTE OF ENGINEERING AND TECHNOLOGY
12th Standard, APS Academy Lucknow CBSE
10th Standard, International Hindu School CBSE

Sep 2021 — May 2025
Jul 2020
Aug 2018

WORK EXPERIENCE

SLAP APP LLP (Software Developer Intern)

Jan 2025 - May 2025

- Built responsive web pages, improving UI consistency by 30% using modern frontend techniques.
- Enhanced mobile responsiveness and cross-browser support, reducing layout issues by 25%.
- Optimized code and improved page performance by 20%.
- Identified and fixed 40+ bugs, improving overall stability.
- Technology: HTML, CSS, Javascript, Bootstrap, Git/GitHub

PROJECTS

Book Management Web App

Tech: Java, Spring Boot, Spring MVC, Spring Data JPA, MySQL, JS, HTML, CSS, Bootstrap

- Built a CRUD-based Book Management System, enabling users to add/update/delete/search books with 100% seamless operations.
- Developed a responsive UI using JavaScript & Bootstrap, improving usability by 30%.
- Designed a Spring Boot + MySQL backend, boosting query performance.

SBI Bank Clone Application

Tech: Java, Servlet, JDBC, MySQL, HTML, CSS, JavaScript

- Developed a banking system supporting account creation, balance inquiry, deposits & withdrawals with secure transaction handling.
- Integrated JDBC + MySQL, improving transaction speed by 20% and ensuring data accuracy.

Smart Glove - Sign to Speech & Home Automation

Tech: C, Arduino, Sensors

- Created a gesture-recognition glove converting hand signs into real-time speech, improving accessibility by 40%.
- Added gesture-based home automation, enabling hands-free control of appliances for enhanced convenience.

SKILLS

Technical skills: HTML, CSS, Javascript, Springboot, Java, MySQL, Oracle DataBase

Tools: Postman, Eclipse, Visual Studio Code, STS

Soft skills: Problem Solving, Team Collaboration, Communication, Project Management, Leadership

Languages: English, Hindi

CERTIFICATIONS

• Java Certification – Incapp

Gained hands-on experience in Core Java, OOPs, exception handling, collections, and JDBC.

• Spring Boot Certification – Incapp

Learned REST API development, Spring MVC, Spring Data JPA, dependency injection, and backend application building.

• IoT Device Certification – Coursera

Covered sensor integration, microcontroller programming, and IoT communication concepts.
